WHAT THIS MEANS

OUTDOORS55's score of 83/100 reflects a generally healthy link set: only 2 broken links and 10 unique out-of-stock links (appearing 21 times) out of 193 total affiliate links, with 175 of those properly tagged as Amazon affiliate links. 48 links show limited regional availability, and 38 Amazon videos are linked to a single region without a multi-market redirect. Flagged videos account for 21.8% of the channel's total views, a meaningful share worth addressing given the volume of views involved.

HOW AFFILIO HELPS

1 DEAD LINKS

12 broken or unavailable links detected

Each of these links loses you commission every time it's clicked instead of converting. Affilio re-checks your link inventory for new breakages (every 30 days on Free, 14 on Boost, 7 on Professional) and puts the moment one goes bad at the top of this list — so you swap in a working link while the video is still earning, instead of hunting for it months later.

2 GLOBAL LINKS

38 videos linked to one Amazon region

None of the 38 Amazon videos route international viewers to their local marketplace. Affilio's Professional plan routes each viewer to their own local Amazon marketplace automatically — set it up once per link, and every future click routes correctly on its own.
