WHAT THIS MEANS

This report highlights several areas where your affiliate links could be improved. Specifically, the breakdown reveals 6 broken links and 50 unique links that are unavailable, each appearing up to 62 times across your videos. Additionally, 127 links are only available in some regions, which may impact sales, and nearly half of your Amazon affiliate links direct viewers to a single region without multi-market redirect, totaling 47.

HOW AFFILIO HELPS

1 DEAD LINKS

56 broken or unavailable links detected

Each of these links loses you commission every time it's clicked instead of converting. Affilio re-checks your link inventory for new breakages (every 30 days on Free, 14 on Boost, 7 on Professional) and puts the moment one goes bad at the top of this list — so you swap in a working link while the video is still earning, instead of hunting for it months later.

2 GLOBAL LINKS

47 videos linked to one Amazon region

None of the 47 Amazon videos route international viewers to their local marketplace. Affilio's Professional plan routes each viewer to their own local Amazon marketplace automatically — set it up once per link, and every future click routes correctly on its own.
