WHAT THIS MEANS

The channel's Link Health Score is 62/100, based on 51 affiliate links detected, of which 6 are broken, 12 are unavailable, and 22 have limited regional availability. Additionally, 11 links are tagged as Amazon affiliates and 16 Amazon videos direct viewers to a single Amazon region without multi-market redirects, while 5.6% of the channel's total views land on a video containing a flagged link. These numbers show that a modest share of the affiliate inventory is non-functional or region-restricted, which could affect conversion potential.

HOW AFFILIO HELPS

1

AUTOFIX

18 broken or unavailable links detected

Each of these links loses you commission every time it's clicked instead of converting. Affilio checks your full link inventory on a recurring schedule — every 7 days on Professional, 14 on Boost, 30 on Free — and repairs dead or unavailable links automatically as soon as they're caught, no manual link-hunting required.

2

GLOBAL LINKS

16 videos linked to one Amazon region

None of the 16 Amazon videos route international viewers to their local marketplace. Affilio's Professional plan routes each viewer to their own local Amazon marketplace automatically — set it up once per link, and every future click routes correctly on its own.
