WHAT THIS MEANS

Your link health score of 40 out of 100 indicates significant room for improvement, with 54% of total affiliate links found on your channel flagged due to broken, unavailable, or regionally limited products. This translates to a substantial 92% of flagged links (27 broken + 5 unavailable + 25 limited regional availability) that could potentially drive views and lost revenue if not rectified, considering 30 out of 70 affiliate links point to a single Amazon region. Correcting these issues can significantly recover lost commission without requiring the creation of new content, ensuring your current content continues to drive optimal earnings.

HOW AFFILIO HELPS

1 DEAD LINKS

32 broken or unavailable links detected

Each of these links loses you commission every time it's clicked instead of converting. Affilio re-checks your link inventory for new breakages (every 30 days on Free, 14 on Boost, 7 on Professional) and puts the moment one goes bad at the top of this list — so you swap in a working link while the video is still earning, instead of hunting for it months later.

2 GLOBAL LINKS

30 videos linked to one Amazon region

None of the 30 Amazon videos route international viewers to their local marketplace. Affilio's Professional plan routes each viewer to their own local Amazon marketplace automatically — set it up once per link, and every future click routes correctly on its own.
