WHAT THIS MEANS

By reviewing this detailed affiliate link health report, you'll see that only 75 out of 100 possible factors are currently in place on your channel, with 6 links available in limited regions and 1 link that may no longer be active, indicating potential missed opportunities for conversions. Additionally, 1.6% of your total views are currently being driven to non-optimized videos, resulting in a lost commission opportunity. By fixing these issues, you'll be able to recover a significant portion of that missing revenue without needing to create any new content.

HOW AFFILIO HELPS

1 DEAD LINKS

1 broken or unavailable link detected

Each of these links loses you commission every time it's clicked instead of converting. Affilio re-checks your link inventory for new breakages (every 30 days on Free, 14 on Boost, 7 on Professional) and puts the moment one goes bad at the top of this list — so you swap in a working link while the video is still earning, instead of hunting for it months later.

2 GLOBAL LINKS

9 videos linked to one Amazon region

None of the 9 Amazon videos route international viewers to their local marketplace. Affilio's Professional plan routes each viewer to their own local Amazon marketplace automatically — set it up once per link, and every future click routes correctly on its own.

Swap these in one click

Affilio tracks every link you've shared, flags the ones that stop working, and gives you a replacement link to drop in — no video edits required.
