RAW AMAZON LINKS

10

missing affiliate tag · appears 14x across videos

WHAT THIS MEANS

The Link Health Score of 55/100 indicates some areas for improvement, with room for optimization to enhance performance. Of the 12 affiliate links found, the report highlights that 10 were raw (untagged) Amazon links appearing 14 times across different videos, while a single tagged Amazon affiliate link and another type of affiliate link were also detected. Review of Amazon links used resulted in the finding that they all directed viewers to a single Amazon region without multi-market redirects.

HOW AFFILIO HELPS

1 GLOBAL LINKS

12 videos linked to one Amazon region

None of the 12 Amazon videos route international viewers to their local marketplace. Affilio's region-aware routing sends each viewer to their own local Amazon marketplace automatically — set it up once per link, and every future click routes correctly on its own.

2 AUTO-TAG

10 raw Amazon links

A bare amazon.com link with no affiliate tag earns you nothing, even when it converts. Affilio auto-wraps links like these with your affiliate tag before the click leaves the page, so nothing slips through untagged.
