WHAT THIS MEANS

The channel’s Link Health Score of 77/100 indicates a generally healthy affiliate link setup, with 15 links detected, 8 of which are limited to certain regions, 7 tagged as Amazon affiliate links, and 5 videos linked to a single Amazon marketplace. Because the Amazon storefront does not support OneLink, international viewers are routed to the US store, which can result in missed commission on non-US purchases, though only 0.5% of the channel’s total views land on a flagged video.

HOW AFFILIO HELPS

1 GLOBAL LINKS

5 videos linked to one Amazon region

None of the 5 Amazon videos route international viewers to their local marketplace. Affilio's Professional plan routes each viewer to their own local Amazon marketplace automatically — set it up once per link, and every future click routes correctly on its own.

2 GLOBAL STORE

Amazon store isn't geo-redirected

Your Amazon storefront link doesn't support OneLink, so every international visitor is sent to the US store — and you lose the commission on their purchase. On the Professional plan you set the regional targets once, and Affilio then routes each viewer to their local Amazon marketplace from then on.
