WHAT THIS MEANS

The Link Health Score for this report is 74/100 based on an analysis of 30 affiliate links. The analysis revealed 1 dead link (a product page is no longer available) and 1 unavailable link (a page loads, but the item is out of stock). Approximately 73% of the links were operational and tagged Amazon affiliate links comprised around 30% of the total links found.

HOW AFFILIO HELPS

1 DEAD LINKS

2 broken or unavailable links detected

Each of these links loses you commission every time it's clicked instead of converting. Affilio re-checks your link inventory for new breakages (every 30 days on Free, 14 on Boost, 7 on Professional) and puts the moment one goes bad at the top of this list — so you swap in a working link while the video is still earning, instead of hunting for it months later.

2 GLOBAL LINKS

10 videos linked to one Amazon region

None of the 10 Amazon videos route international viewers to their local marketplace. Affilio's Professional plan routes each viewer to their own local Amazon marketplace automatically — set it up once per link, and every future click routes correctly on its own.

3 GLOBAL STORE

Amazon store isn't geo-redirected

Your Amazon storefront link doesn't support OneLink, so every international visitor is sent to the US store — and you lose the commission on their purchase. On the Professional plan you set the regional targets once, and Affilio then routes each viewer to their local Amazon marketplace from then on.

Flagged videos			ALL 2, MOST SEVERE FIRST
