WHAT THIS MEANS

Andrew Bond, a 11.0% of your total views are currently landing on flagged content due to a combination of broken, unavailable, and regionally limited affiliate links. With a total of 179 affiliate links found, improvements can be made to optimize this for the best possible conversion rate, starting with removing the 3 broken links and addressing the 201 occurrences of unavailable links. Fixing these issues will enable higher conversion rates without requiring the creation of new content.

HOW AFFILIO HELPS

1 AUTOFIX

10 broken or unavailable links detected

Each of these links loses you commission every time it's clicked instead of converting. Affilio checks your full link inventory on a recurring schedule — as often as every 7 days — and repairs dead or unavailable links automatically as soon as they're caught, no manual link-hunting required.

2 GLOBAL LINKS

163 videos linked to one Amazon region

None of the 163 Amazon videos route international viewers to their local marketplace. Affilio's region-aware routing sends each viewer to their own local Amazon marketplace automatically — set it up once per link, and every future click routes correctly on its own.

3 AUTO-TAG

1 raw Amazon link

A bare amazon.com link with no affiliate tag earns you nothing, even when it converts. Affilio auto-wraps links like these with your affiliate tag before the click leaves the page, so nothing slips through untagged.
