UNAVAILABLE LINKS

4

item out of stock

WHAT THIS MEANS

Allison Baek has a Link Health Score of 72/100, based on 46 affiliate links: 3 unique links are broken (appearing 4 times across videos), 4 are unavailable, and 15 show limited regional availability. Thirteen Amazon-linked videos are tied to a single region, and the channel's Amazon storefront does not support OneLink, so international viewers are sent to the US store and commission on non-US purchases is lost. The flagged videos account for a moderate 17.2% share of the channel's total views, so addressing the regional and storefront gaps could offer some additional commission opportunity.

HOW AFFILIO HELPS

1 AUTOFIX

7 broken or unavailable links detected

Each of these links loses you commission every time it's clicked instead of converting. Affilio checks your full link inventory on a recurring schedule — every 7 days on Professional, 14 on Boost, 30 on Free — and repairs dead or unavailable links automatically as soon as they're caught, no manual link-hunting required.

2 GLOBAL LINKS

13 videos linked to one Amazon region

None of the 13 Amazon videos route international viewers to their local marketplace. Affilio's Professional plan routes each viewer to their own local Amazon marketplace automatically — set it up once per link, and every future click routes correctly on its own.

3 GLOBAL STORE

Amazon store isn't geo-redirected

Your Amazon storefront link doesn't support OneLink, so every international visitor is sent to the US store — and you lose the commission on their purchase. Affilio routes each viewer to their local Amazon marketplace automatically, on the Professional plan, the same way it does for individual product links.
