WHAT THIS MEANS

This channel's Link Health Score of 60/100 covers 100 affiliate links, with 14 broken, 21 unavailable, and 17 showing limited regional availability. Of the 48 tagged Amazon links, 38 associated videos link to a single Amazon region without a multi-market redirect, and the channel's Amazon storefront doesn't support OneLink, sending international viewers to the US store; flagged videos make up a small 3.4% of the channel's total views. Given how little current traffic is affected, any change from addressing these issues would likely be modest.

HOW AFFILIO HELPS

1 DEAD LINKS

35 broken or unavailable links detected

Each of these links loses you commission every time it's clicked instead of converting. Affilio re-checks your link inventory for new breakages (every 30 days on Free, 14 on Boost, 7 on Professional) and puts the moment one goes bad at the top of this list — so you swap in a working link while the video is still earning, instead of hunting for it months later.

2 GLOBAL LINKS

38 videos linked to one Amazon region

None of the 38 Amazon videos route international viewers to their local marketplace. Affilio's Professional plan routes each viewer to their own local Amazon marketplace automatically — set it up once per link, and every future click routes correctly on its own.

3 GLOBAL STORE

Amazon store isn't geo-redirected

Your Amazon storefront link doesn't support OneLink, so every international visitor is sent to the US store — and you lose the commission on their purchase. On the Professional plan you set the regional targets once, and Affilio then routes each viewer to their local Amazon marketplace from then on.
