item out of stock · appears 686× across videos

WHAT THIS MEANS

According to our analysis, a substantial proportion of your affiliate links – specifically 541 unique links – are not working as intended, including 38 completely dead links and 503 that are unavailable, in addition to 300 with limited regional availability, all of which are costing you potential commissions and affecting viewer experiences. Given that 55.5% of your total views are currently being funneled into flagged videos, taking immediate action to optimize your links and ensure seamless user journeys could significantly recover earned commissions without requiring an increase in video uploads.

HOW AFFILIO HELPS

1

AUTOFIX

541 broken or unavailable links detected

Each of these links loses you commission every time it's clicked instead of converting. Affilio checks your full link inventory on a recurring schedule — as often as every 7 days — and repairs dead or unavailable links automatically as soon as they're caught, no manual link-hunting required.

2

GLOBAL LINKS

181 videos linked to one Amazon region

None of the 181 Amazon videos route international viewers to their local marketplace. Affilio's region-aware routing sends each viewer to their own local Amazon marketplace automatically — set it up once per link, and every future click routes correctly on its own.
