WHAT THIS MEANS

The channel’s link health score is 80/100, with six affiliate links detected; one is unavailable and one has limited regional availability. Four links are tagged Amazon affiliates, three of which point only to a single Amazon region, and the storefront does not support OneLink, so international viewers are directed to the US store, potentially missing commissions on non-US sales. Currently, only 0.3% of the channel’s total views land on a video that contains a flagged link.

HOW AFFILIO HELPS

1 DEAD LINKS

1 broken or unavailable link detected

Each of these links loses you commission every time it's clicked instead of converting. Affilio re-checks your link inventory for new breakages (every 30 days on Free, 14 on Boost, 7 on Professional) and puts the moment one goes bad at the top of this list — so you swap in a working link while the video is still earning, instead of hunting for it months later.

2 GLOBAL LINKS

3 videos linked to one Amazon region

None of the 3 Amazon videos route international viewers to their local marketplace. Affilio's Professional plan routes each viewer to their own local Amazon marketplace automatically — set it up once per link, and every future click routes correctly on its own.

3 GLOBAL STORE

Amazon store isn't geo-redirected

Your Amazon storefront link doesn't support OneLink, so every international visitor is sent to the US store — and you lose the commission on their purchase. On the Professional plan you set the regional targets once, and Affilio then routes each viewer to their local Amazon marketplace from then on.
