WHAT THIS MEANS

With only 12 affiliate links, this channel's link health score of 72/100 reflects a small number of issues: 1 link is broken, 1 is unavailable, and 9 have limited regional availability. Just 1 Amazon link is tagged, and 4 Amazon-linked videos point to a single region without a multi-market redirect. The channel's Amazon storefront does not support OneLink, so international viewers are sent to the US store, and purchases there would not generate commission. These flagged videos represent a small 1.2% of the channel's total views.

HOW AFFILIO HELPS

1 AUTOFIX

2 broken or unavailable links detected

Each of these links loses you commission every time it's clicked instead of converting. Affilio checks your full link inventory on a recurring schedule — every 7 days on Professional, 14 on Boost, 30 on Free — and repairs dead or unavailable links automatically as soon as they're caught, no manual link-hunting required.

2 GLOBAL LINKS

4 videos linked to one Amazon region

None of the 4 Amazon videos route international viewers to their local marketplace. Affilio's Professional plan routes each viewer to their own local Amazon marketplace automatically — set it up once per link, and every future click routes correctly on its own.

3 GLOBAL STORE

Amazon store isn't geo-redirected

Your Amazon storefront link doesn't support OneLink, so every international visitor is sent to the US store — and you lose the commission on their purchase. Affilio routes each viewer to their local Amazon marketplace automatically, on the Professional plan, the same way it does for individual product links.
