WHAT THIS MEANS

This channel's Link Health Score of 74/100 covers 146 affiliate links, with regional restriction the dominant pattern — 530 links show limited availability outside certain regions. Fourteen unique links are broken (appearing 183 times across videos) and 21 unique links are unavailable (appearing 106 times), and because the channel's Amazon storefront link doesn't support OneLink, international viewers are also sent to the US store. These flagged videos account for 52.2% of total channel views — just over half of the channel's traffic — so addressing the broken links and regional routing could plausibly help recover some commission, though the actual outcome isn't guaranteed.

HOW AFFILIO HELPS

1 DEAD LINKS

35 broken or unavailable links detected

Each of these links loses you commission every time it's clicked instead of converting. Affilio re-checks your link inventory for new breakages (every 30 days on Free, 14 on Boost, 7 on Professional) and puts the moment one goes bad at the top of this list — so you swap in a working link while the video is still earning, instead of hunting for it months later.

2 GLOBAL LINKS

43 videos linked to one Amazon region

None of the 43 Amazon videos route international viewers to their local marketplace. Affilio's Professional plan routes each viewer to their own local Amazon marketplace automatically — set it up once per link, and every future click routes correctly on its own.

3 GLOBAL STORE

Amazon store isn't geo-redirected

Your Amazon storefront link doesn't support OneLink, so every international visitor is sent to the US store — and you lose the commission on their purchase. On the Professional plan you set the regional targets once, and Affilio then routes each viewer to their local Amazon marketplace from then on.
