UNAVAILABLE LINKS

26

item out of stock · appears 101x across videos

WHAT THIS MEANS

Your Link Health Score is 72/100 with 29 affiliate links found across your content. Notably, 101 of your links have limited regional availability, while tagged Amazon affiliate links and Amazon videos with single-market redirects make up 3 and 25 links respectively, highlighting potential missed sales opportunities. Furthermore, as your channel lacks Amazon's OneLink support, international viewers are redirected to your US storefront, forfeiting a substantial portion of earned commission, which could otherwise be recovered with a few adjustments to optimize your existing content.

HOW AFFILIO HELPS

1 DEAD LINKS

26 broken or unavailable links detected

Each of these links loses you commission every time it's clicked instead of converting. Affilio re-checks your link inventory for new breakages (every 30 days on Free, 14 on Boost, 7 on Professional) and puts the moment one goes bad at the top of this list — so you swap in a working link while the video is still earning, instead of hunting for it months later.

2 GLOBAL LINKS

25 videos linked to one Amazon region

None of the 25 Amazon videos route international viewers to their local marketplace. Affilio's Professional plan routes each viewer to their own local Amazon marketplace automatically — set it up once per link, and every future click routes correctly on its own.

3 GLOBAL STORE

Amazon store isn't geo-redirected

Your Amazon storefront link doesn't support OneLink, so every international visitor is sent to the US store — and you lose the commission on their purchase. On the Professional plan you set the regional targets once, and Affilio then routes each viewer to their local Amazon marketplace from then on.
