WHAT THIS MEANS

Based on the analysis, your link health score is 68 out of 100, which suggests some areas where you can improve link performance. Currently, 22 unique links are broken, 43 unique links are unavailable, and 32 videos link to a single Amazon region, potentially losing commission on non-US purchases due to the storefront configuration. Approximately 5.4% of your total views are landing on flagged videos with potential issues.

HOW AFFILIO HELPS

1 DEAD LINKS

65 broken or unavailable links detected

Each of these links loses you commission every time it's clicked instead of converting. Affilio re-checks your link inventory for new breakages (every 30 days on Free, 14 on Boost, 7 on Professional) and puts the moment one goes bad at the top of this list — so you swap in a working link while the video is still earning, instead of hunting for it months later.

2 GLOBAL LINKS

32 videos linked to one Amazon region

None of the 32 Amazon videos route international viewers to their local marketplace. Affilio's Professional plan routes each viewer to their own local Amazon marketplace automatically — set it up once per link, and every future click routes correctly on its own.

3 GLOBAL STORE

Amazon store isn't geo-redirected

Your Amazon storefront link doesn't support OneLink, so every international visitor is sent to the US store — and you lose the commission on their purchase. On the Professional plan you set the regional targets once, and Affilio then routes each viewer to their local Amazon marketplace from then on.
