WHAT THIS MEANS

Joshua, your link health report reveals concerning issues that could significantly impact your affiliate earnings. A Link Health Score of 60/100 indicates that 28 affiliate links contain 11 region-locked videos and 7 unavailability issues, limiting their effectiveness and costing potential commissions. By rectifying these issues, you could unlock a substantial portion of your lost revenue without needing to create new content, ultimately driving growth without added production efforts.

HOW AFFILIO HELPS

1 DEAD LINKS

11 broken or unavailable links detected

Each of these links loses you commission every time it's clicked instead of converting. Affilio re-checks your link inventory for new breakages (every 30 days on Free, 14 on Boost, 7 on Professional) and puts the moment one goes bad at the top of this list — so you swap in a working link while the video is still earning, instead of hunting for it months later.

2 GLOBAL LINKS

11 videos linked to one Amazon region

None of the 11 Amazon videos route international viewers to their local marketplace. Affilio's Professional plan routes each viewer to their own local Amazon marketplace automatically — set it up once per link, and every future click routes correctly on its own.
