WHAT THIS MEANS

Etienne, your health report reveals a Link Health Score of 60/100, indicating room for improvement in affiliate link optimization. Specifically, 4 of your links have limited regional availability, which might harm viewers outside those regions, and 2 links are unavailable, resulting in missed opportunities. By addressing these issues, you can recover commissions without needing to create new content.

HOW AFFILIO HELPS

1 DEAD LINKS

2 broken or unavailable links detected

Each of these links loses you commission every time it's clicked instead of converting. Affilio re-checks your link inventory for new breakages (every 30 days on Free, 14 on Boost, 7 on Professional) and puts the moment one goes bad at the top of this list — so you swap in a working link while the video is still earning, instead of hunting for it months later.

2 GLOBAL LINKS

6 videos linked to one Amazon region

None of the 6 Amazon videos route international viewers to their local marketplace. Affilio's Professional plan routes each viewer to their own local Amazon marketplace automatically — set it up once per link, and every future click routes correctly on its own.

3 UNTAGGED LINK

1 raw Amazon link

A bare Amazon link with no affiliate tag earns you nothing, even when it converts — the click still converts, the commission just goes to whoever's tag is on the link. Swap in a tagged link and the same video starts earning again.
