WHAT THIS MEANS

The channel’s link health score is 78 / 100, with 46 affiliate links identified. Of these, 38 are limited to specific regions, 24 are tagged Amazon links, and 37 Amazon links point to a single marketplace; because the channel’s Amazon storefront does not support OneLink, international viewers are sent to the US store, which may limit commission on non-US purchases. Since only 0.9 % of total views land on a flagged video, the current impact on earnings is modest, though improving regional availability could potentially increase commission capture.

HOW AFFILIO HELPS

1

DEAD LINKS

1 broken or unavailable link detected

Each of these links loses you commission every time it's clicked instead of converting. Afflio re-checks your link inventory for new breakages (every 30 days on Free, 14 on Boost, 7 on Professional) and puts the moment one goes bad at the top of this list — so you swap in a working link while the video is still earning, instead of hunting for it months later.

2

GLOBAL LINKS

37 videos linked to one Amazon region

None of the 37 Amazon videos route international viewers to their local marketplace. Afflio's Professional plan routes each viewer to their own local Amazon marketplace automatically — set it up once per link, and every future click routes correctly on its own.

3

GLOBAL STORE

Amazon store isn't geo-redirected

Your Amazon storefront link doesn't support OneLink, so every international visitor is sent to the US store — and you lose the commission on their purchase. On the Professional plan you set the regional targets once, and Afflio then routes each viewer to their local Amazon marketplace from then on.
