WHAT THIS MEANS

Your link health score is 100 / 100, showing that the single affiliate link we detected is fully functional, and the one additional affiliate link is also active. Because your Amazon storefront does not support OneLink, international viewers are sent to the US store, which can lead to lost commission on purchases made outside the United States.

HOW AFFILIO HELPS

1

GLOBAL STORE

Amazon store isn't geo-redirected

Your Amazon storefront link doesn't support OneLink, so every international visitor is sent to the US store — and you lose the commission on their purchase. On the Professional plan you set the regional targets once, and Affilio then routes each viewer to their local Amazon marketplace from then on.

Swap these in one click

Affilio tracks every link you've shared, flags the ones that stop working, and gives you a replacement link to drop in — no video edits required.
