WHAT THIS MEANS

This channel's Link Health Score of 78/100 covers 132 affiliate links, with 8 broken links (appearing 17 times) and 22 unavailable links (42 appearances), plus 69 links with limited regional availability. Of the 73 tagged Amazon links and 1 eBay link, 40 associated videos link to a single Amazon region without a multi-market redirect, and flagged videos account for 32.8% of the channel's total views - a substantial share of traffic touching these issues. Addressing the broken, unavailable, and region-locked links could potentially help recover some commission from that traffic, though this isn't guaranteed.

HOW AFFILIO HELPS

1 DEAD LINKS

30 broken or unavailable links detected

Each of these links loses you commission every time it's clicked instead of converting. Affilio re-checks your link inventory for new breakages (every 30 days on Free, 14 on Boost, 7 on Professional) and puts the moment one goes bad at the top of this list — so you swap in a working link while the video is still earning, instead of hunting for it months later.

2 GLOBAL LINKS

40 videos linked to one Amazon region

None of the 40 Amazon videos route international viewers to their local marketplace. Affilio's Professional plan routes each viewer to their own local Amazon marketplace automatically — set it up once per link, and every future click routes correctly on its own.
