RAW AMAZON LINKS

1

missing affiliate tag

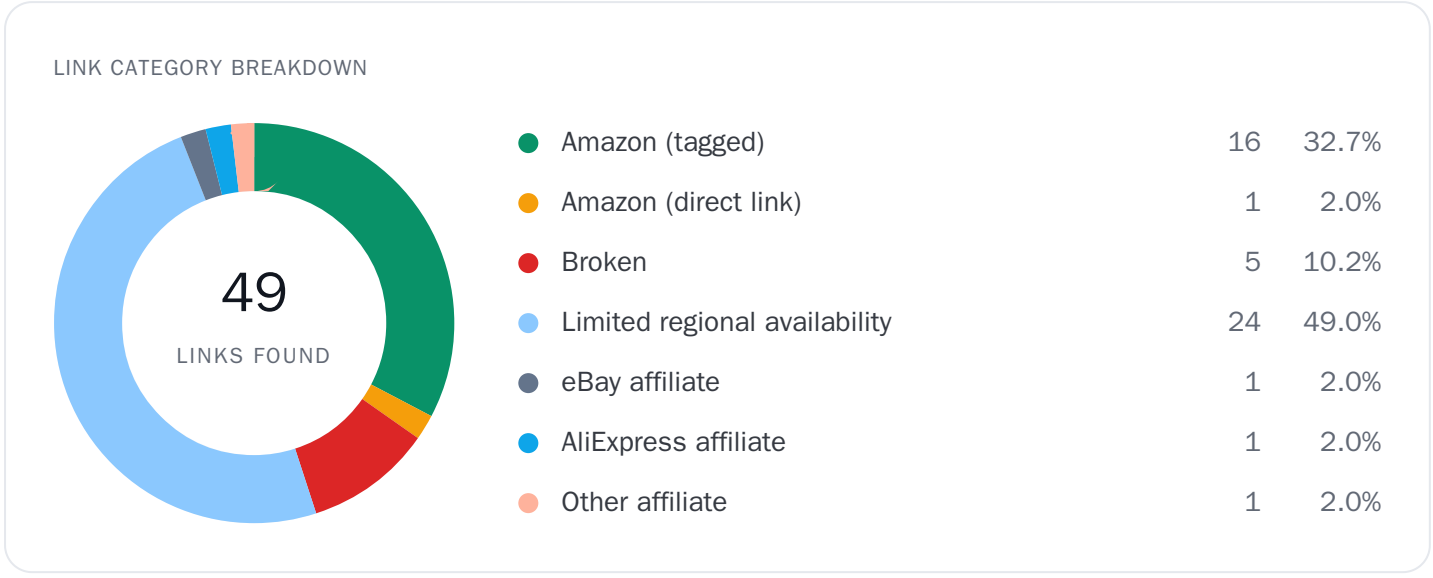

BROKEN LINKS

5

dead, no longer exists · appears 8x across videos

WHAT THIS MEANS

The report shows a Link Health Score of 60/100, with 49 affiliate links identified, including 5 broken links that appear 8 times and 24 links that are only available in certain regions. Only 16 Amazon links are properly tagged, and the channel’s Amazon storefront does not support OneLink, so international viewers are sent to the US store and may not generate commission. Flagged videos currently receive 4.1% of the channel’s total views, so the identified issues affect a relatively small share of overall traffic.

HOW AFFILIO HELPS

- 1

DEAD LINKS

5 broken or unavailable links detected

Each of these links loses you commission every time it's clicked instead of converting. Affilio re-checks your link inventory for new breakages (every 30 days on Free, 14 on Boost, 7 on Professional) and puts the moment one goes bad at the top of this list — so you swap in a working link while the video is still earning, instead of hunting for it months later.
- 2

GLOBAL LINKS

35 videos linked to one Amazon region

None of the 35 Amazon videos route international viewers to their local marketplace. Affilio's Professional plan routes each viewer to their own local Amazon marketplace automatically — set it up once per link, and every future click routes correctly on its own.
- 3

UNTAGGED LINK

1 raw Amazon link

A bare Amazon link with no affiliate tag earns you nothing, even when it converts — the click still converts, the commission just goes to whoever's tag is on the link. Swap in a tagged link and the same video starts earning again.
- 4

GLOBAL STORE

Amazon store isn't geo-redirected

Your Amazon storefront link doesn't support OneLink, so every international visitor is sent to the US store — and you lose the commission on their purchase. On the Professional plan you set the regional targets once, and Affilio then routes each viewer to their local Amazon marketplace from then on.
