WHAT THIS MEANS

The Link Health Score of 84/100 indicates there are areas for improvement in your affiliate link performance, but overall it remains in a relatively strong position. Out of 269 affiliate links found, 16 unique links appeared unavailable, with 10 additional links having limited regional availability. This accounts for a relatively small 12.1% share of your channel's total views landing on flagged videos, suggesting a need to address these issues to optimize link performance and explore potential benefits of improvement.

HOW AFFILIO HELPS

1

DEAD LINKS

16 broken or unavailable links detected

Each of these links loses you commission every time it's clicked instead of converting. Affilio re-checks your link inventory for new breakages (every 30 days on Free, 14 on Boost, 7 on Professional) and puts the moment one goes bad at the top of this list — so you swap in a working link while the video is still earning, instead of hunting for it months later.

2

GLOBAL LINKS

46 videos linked to one Amazon region

None of the 46 Amazon videos route international viewers to their local marketplace. Affilio's Professional plan routes each viewer to their own local Amazon marketplace automatically — set it up once per link, and every future click routes correctly on its own.
