WHAT THIS MEANS

Maurice Moves, upon reviewing your link health report, the results indicate that your affiliate links have room for improvement. Specifically, you have a Link Health Score of 76/100, suggesting that nearly a quarter of your 1059 affiliate links are either broken, unavailability issues, or lack a multi-market redirect, resulting in 94 flagged links and a significant 60.4% of your total views being lost to these issues alone. By addressing and optimizing these issues, you have a substantial opportunity to recover commission without generating any new content.

HOW AFFILIO HELPS

1

AUTOFIX

86 broken or unavailable links detected

Each of these links loses you commission every time it's clicked instead of converting. Affilio checks your full link inventory on a recurring schedule — as often as every 7 days — and repairs dead or unavailable links automatically as soon as they're caught, no manual link-hunting required.

2

GLOBAL LINKS

154 videos linked to one Amazon region

None of the 154 Amazon videos route international viewers to their local marketplace. Affilio's region-aware routing sends each viewer to their own local Amazon marketplace automatically — set it up once per link, and every future click routes correctly on its own.
