WHAT THIS MEANS

Based on our analysis, your YouTube channel GregsGadgets has a significant link health issue, with 3 broken links and 77 unavailable links out of 93 affiliate links, resulting in a Link Health Score of 72/100. This indicates that a substantial portion of your viewers are clicking on links that may not be available or relevant to their region, resulting in lost commission opportunities. Addressing these issues will not only improve the viewing experience for international viewers but also result in significant recovered commission without requiring new content creation.

HOW AFFILIO HELPS

1 DEAD LINKS

80 broken or unavailable links detected

Each of these links loses you commission every time it's clicked instead of converting. Affilio re-checks your link inventory for new breakages (every 30 days on Free, 14 on Boost, 7 on Professional) and puts the moment one goes bad at the top of this list — so you swap in a working link while the video is still earning, instead of hunting for it months later.

2 GLOBAL LINKS

34 videos linked to one Amazon region

None of the 34 Amazon videos route international viewers to their local marketplace. Affilio's Professional plan routes each viewer to their own local Amazon marketplace automatically — set it up once per link, and every future click routes correctly on its own.

3 GLOBAL STORE

Amazon store isn't geo-redirected

Your Amazon storefront link doesn't support OneLink, so every international visitor is sent to the US store — and you lose the commission on their purchase. On the Professional plan you set the regional targets once, and Affilio then routes each viewer to their local Amazon marketplace from then on.
