RAW AMAZON LINKS

36

missing affiliate tag · appears 49x across videos

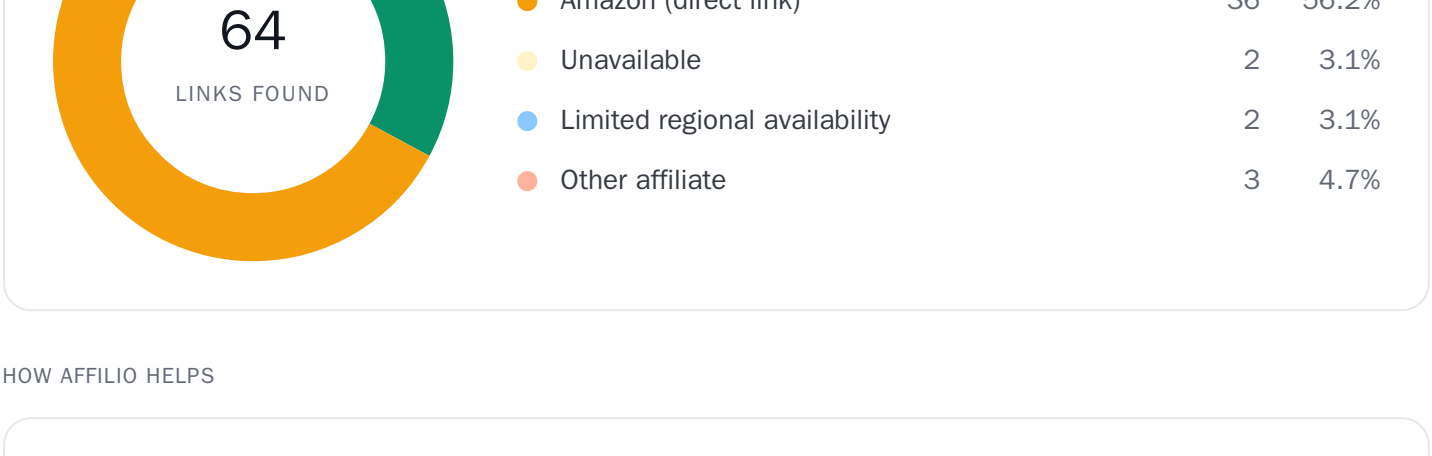

UNAVAILABLE LINKS

2

item out of stock

WHAT THIS MEANS

Based on our analysis, your affiliate links have a Link Health Score of 60/100, which means 14 links are unavailable or have limited regional availability out of a total of 64 links found in your content. Additionally, nearly 5% of your channel's total views are currently being funneled into flagged videos that could be costing you valuable commission. By addressing these issues, you can significantly improve your commission recoveries without needing to create any new content.

HOW AFFILIO HELPS

- 1

AUTOFIX

2 broken or unavailable links detected

Each of these links loses you commission every time it's clicked instead of converting. Affilio checks your full link inventory on a recurring schedule — as often as every 7 days — and repairs dead or unavailable links automatically as soon as they're caught, no manual link-hunting required.
- 2

GLOBAL LINKS

35 videos linked to one Amazon region

None of the 35 Amazon videos route international viewers to their local marketplace. Affilio's region-aware routing sends each viewer to their own local Amazon marketplace automatically — set it up once per link, and every future click routes correctly on its own.
- 3

AUTO-TAG

36 raw Amazon links

A bare amazon.com link with no affiliate tag earns you nothing, even when it converts. Affilio auto-wraps links like these with your affiliate tag before the click leaves the page, so nothing slips through untagged.
- 4

GLOBAL STORE

Amazon store isn't geo-redirected

Your Amazon storefront link doesn't support OneLink, so every international visitor is sent to the US store — and you lose the commission on their purchase. Affilio routes each viewer to their local Amazon marketplace automatically, the same way it does for individual product links.
