WHAT THIS MEANS

This report outlines the health of Mr LazyTech's affiliate links. The link health score is 76 out of 100, indicating some areas for improvement. Of the 38 affiliate links found, 3 are broken, 3 are unavailable, and 40 are limited in regional availability, which may result in missed commission opportunities, especially considering that 12 Amazon videos link to a single region and are not optimized for multi-market redirect, meaning international viewers may not receive the intended product.

HOW AFFILIO HELPS

1 DEAD LINKS

6 broken or unavailable links detected

Each of these links loses you commission every time it's clicked instead of converting. Affilio re-checks your link inventory for new breakages (every 30 days on Free, 14 on Boost, 7 on Professional) and puts the moment one goes bad at the top of this list — so you swap in a working link while the video is still earning, instead of hunting for it months later.

2 GLOBAL LINKS

12 videos linked to one Amazon region

None of the 12 Amazon videos route international viewers to their local marketplace. Affilio's Professional plan routes each viewer to their own local Amazon marketplace automatically — set it up once per link, and every future click routes correctly on its own.

3 GLOBAL STORE

Amazon store isn't geo-redirected

Your Amazon storefront link doesn't support OneLink, so every international visitor is sent to the US store — and you lose the commission on their purchase. On the Professional plan you set the regional targets once, and Affilio then routes each viewer to their local Amazon marketplace from then on.
