WHAT THIS MEANS

The channel’s Link Health Score of 77/100 shows generally solid link integrity, with only one broken link among the 31 found. However, 91 links have limited regional availability and 19 Amazon videos are tied to a single Amazon region, while the channel’s Amazon storefront does not support OneLink, so international viewers are directed to the US store and may not generate commission. These factors affect approximately 2.2% of the channel’s total views that land on a flagged video.

HOW AFFILIO HELPS

1 DEAD LINKS

1 broken or unavailable link detected

Each of these links loses you commission every time it's clicked instead of converting. Affilio re-checks your link inventory for new breakages (every 30 days on Free, 14 on Boost, 7 on Professional) and puts the moment one goes bad at the top of this list — so you swap in a working link while the video is still earning, instead of hunting for it months later.

2 GLOBAL LINKS

19 videos linked to one Amazon region

None of the 19 Amazon videos route international viewers to their local marketplace. Affilio's Professional plan routes each viewer to their own local Amazon marketplace automatically — set it up once per link, and every future click routes correctly on its own.

3 GLOBAL STORE

Amazon store isn't geo-redirected

Your Amazon storefront link doesn't support OneLink, so every international visitor is sent to the US store — and you lose the commission on their purchase. On the Professional plan you set the regional targets once, and Affilio then routes each viewer to their local Amazon marketplace from then on.
