WHAT THIS MEANS

A Link Health Score of 77/100 reflects generally healthy affiliate placement, though one broken link (appearing twice) and two unavailable links indicate a small amount of non-functioning content. The majority of links—58 out of 67—have limited regional availability, and only 0.2% of the channel’s total views land on videos with flagged links, so overall exposure to these issues is modest. Of the 31 Amazon affiliate links, 16 point to a single Amazon marketplace without multi-market redirects.

HOW AFFILIO HELPS

1 DEAD LINKS

3 broken or unavailable links detected

Each of these links loses you commission every time it's clicked instead of converting. Affilio re-checks your link inventory for new breakages (every 30 days on Free, 14 on Boost, 7 on Professional) and puts the moment one goes bad at the top of this list — so you swap in a working link while the video is still earning, instead of hunting for it months later.

2 GLOBAL LINKS

16 videos linked to one Amazon region

None of the 16 Amazon videos route international viewers to their local marketplace. Affilio's Professional plan routes each viewer to their own local Amazon marketplace automatically — set it up once per link, and every future click routes correctly on its own.
