WHAT THIS MEANS

This report highlights several areas for improvement in your affiliate link usage. Specifically, it was noted that one in five views on your channel are directed to videos with flagged affiliate links, which account for a relatively low Link Health Score of 60/100. A total of 18 unique flagged links were identified across your 43 affiliate links, including a mix of broken, unavailable, and regionally limited links.

HOW AFFILIO HELPS

1 DEAD LINKS

18 broken or unavailable links detected

Each of these links loses you commission every time it's clicked instead of converting. Affilio re-checks your link inventory for new breakages (every 30 days on Free, 14 on Boost, 7 on Professional) and puts the moment one goes bad at the top of this list — so you swap in a working link while the video is still earning, instead of hunting for it months later.

2 GLOBAL LINKS

31 videos linked to one Amazon region

None of the 31 Amazon videos route international viewers to their local marketplace. Affilio's Professional plan routes each viewer to their own local Amazon marketplace automatically — set it up once per link, and every future click routes correctly on its own.

3 UNTAGGED LINK

1 raw Amazon link

A bare Amazon link with no affiliate tag earns you nothing, even when it converts — the click still converts, the commission just goes to whoever's tag is on the link. Swap in a tagged link and the same video starts earning again.
