WHAT THIS MEANS

Your channel's current Link Health Score is 60/100, indicating opportunities for improvement. Specifically, you have 23 non-functional links in total including 19 limited to specific regions and 2 which do not offer the intended purchase experience, resulting in missed sales. By addressing these issues, you can potentially recover a significant portion of the earnings lost due to these broken and limited links, without creating new content, simply by optimizing your existing strategy.

HOW AFFILIO HELPS

1 DEAD LINKS

2 broken or unavailable links detected

Each of these links loses you commission every time it's clicked instead of converting. Affilio re-checks your link inventory for new breakages (every 30 days on Free, 14 on Boost, 7 on Professional) and puts the moment one goes bad at the top of this list — so you swap in a working link while the video is still earning, instead of hunting for it months later.

2 GLOBAL LINKS

20 videos linked to one Amazon region

None of the 20 Amazon videos route international viewers to their local marketplace. Affilio's Professional plan routes each viewer to their own local Amazon marketplace automatically — set it up once per link, and every future click routes correctly on its own.

3 GLOBAL STORE

Amazon store isn't geo-redirected

Your Amazon storefront link doesn't support OneLink, so every international visitor is sent to the US store — and you lose the commission on their purchase. On the Professional plan you set the regional targets once, and Affilio then routes each viewer to their local Amazon marketplace from then on.
