WHAT THIS MEANS

The Link Health Score indicates that there are areas for improvement in the channel's affiliate link setup, with a score of 73 out of 100. A total of 19 affiliate links were found across the channel's videos, which includes 12 unique links that were unavailable due to page loads or items being out of stock, and an additional 10 links that had limited regional availability. This may result in lost opportunities for commission on sales from viewers in regions where the items are not in stock or are not currently available.

HOW AFFILIO HELPS

1 DEAD LINKS

12 broken or unavailable links detected

Each of these links loses you commission every time it's clicked instead of converting. Affilio re-checks your link inventory for new breakages (every 30 days on Free, 14 on Boost, 7 on Professional) and puts the moment one goes bad at the top of this list — so you swap in a working link while the video is still earning, instead of hunting for it months later.

2 GLOBAL LINKS

9 videos linked to one Amazon region

None of the 9 Amazon videos route international viewers to their local marketplace. Affilio's Professional plan routes each viewer to their own local Amazon marketplace automatically — set it up once per link, and every future click routes correctly on its own.

3 GLOBAL STORE

Amazon store isn't geo-redirected

Your Amazon storefront link doesn't support OneLink, so every international visitor is sent to the US store — and you lose the commission on their purchase. On the Professional plan you set the regional targets once, and Affilio then routes each viewer to their local Amazon marketplace from then on.
