WHAT THIS MEANS

The channel's Link Health Score of 83/100 indicates that the majority of its 29 affiliate links are correctly tagged, with 26 Amazon links using your ID and only one broken link, one limited-region link, and one raw Amazon link. However, four videos link to a single Amazon region and the Amazon storefront does not support OneLink, so international viewers are sent to the US store, which may reduce commission on non-US purchases. Flagged videos represent about 2.1 % of total channel views, a relatively modest share.

HOW AFFILIO HELPS

- 1

DEAD LINKS

1 broken or unavailable link detected

Each of these links loses you commission every time it's clicked instead of converting. Affilio re-checks your link inventory for new breakages (every 30 days on Free, 14 on Boost, 7 on Professional) and puts the moment one goes bad at the top of this list — so you swap in a working link while the video is still earning, instead of hunting for it months later.
- 2

GLOBAL LINKS

4 videos linked to one Amazon region

None of the 4 Amazon videos route international viewers to their local marketplace. Affilio's Professional plan routes each viewer to their own local Amazon marketplace automatically — set it up once per link, and every future click routes correctly on its own.
- 3

UNTAGGED LINK

1 raw Amazon link

A bare Amazon link with no affiliate tag earns you nothing, even when it converts — the click still converts, the commission just goes to whoever's tag is on the link. Swap in a tagged link and the same video starts earning again.
- 4

GLOBAL STORE

Amazon store isn't geo-redirected

Your Amazon storefront link doesn't support OneLink, so every international visitor is sent to the US store — and you lose the commission on their purchase. On the Professional plan you set the regional targets once, and Affilio then routes each viewer to their local Amazon marketplace from then on.
