RAW AMAZON LINKS

1

missing affiliate tag

WHAT THIS MEANS

Your channel's Link Health Score of 70 indicates room for improvement in optimizing affiliate links for seamless user experiences and maximizing commission earnings. Unfortunately, we found 1 raw Amazon link that can impact international viewers, potentially leading to lost commission on non-US purchases due to the absence of OneLink. Travis, taking swift action in addressing these link issues can have a significant impact as approximately 0.8% of your views are already landing on flagged videos, resulting in a substantial loss of potential commission without creating new content.

HOW AFFILIO HELPS

- 1

UNTAGGED LINK

1 raw Amazon link

A bare Amazon link with no affiliate tag earns you nothing, even when it converts — the click still converts, the commission just goes to whoever's tag is on the link. Swap in a tagged link and the same video starts earning again.
- 2

GLOBAL STORE

Amazon store isn't geo-redirected

Your Amazon storefront link doesn't support OneLink, so every international visitor is sent to the US store — and you lose the commission on their purchase. On the Professional plan you set the regional targets once, and Affilio then routes each viewer to their local Amazon marketplace from then on.
