UNAVAILABLE LINKS

1

item out of stock · appears 16x across videos

WHAT THIS MEANS

The channel's Link Health Score is 58 out of 100, indicating moderate overall health. One unique affiliate link is unavailable, appearing 16 times across videos, and two Amazon affiliate links are present, all pointing to a single Amazon region with 20 videos lacking multi-market redirects; these flagged items account for 17.4 % of the channel's total views. Addressing the unavailable link and adding regional redirects could potentially improve the share of functional links, though any impact on earnings is not guaranteed.

HOW AFFILIO HELPS

1 DEAD LINKS

1 broken or unavailable link detected

Each of these links loses you commission every time it's clicked instead of converting. Affilio re-checks your link inventory for new breakages (every 30 days on Free, 14 on Boost, 7 on Professional) and puts the moment one goes bad at the top of this list — so you swap in a working link while the video is still earning, instead of hunting for it months later.

2 GLOBAL LINKS

20 videos linked to one Amazon region

None of the 20 Amazon videos route international viewers to their local marketplace. Affilio's Professional plan routes each viewer to their own local Amazon marketplace automatically — set it up once per link, and every future click routes correctly on its own.
