UNAVAILABLE LINKS

1

item out of stock

WHAT THIS MEANS

With a Link Health Score of 30/100, your affiliate links are significantly impaired, resulting in a substantial loss of potential sales and commissions. Specifically, of the 4 affiliate links found on your channel, 97 instances of broken links and 1 instance of an unavailable link are preventing viewers from making purchases. Additionally, 50 Amazon videos link to a single region, and your storefront lacks OneLink support, meaning international viewers are redirected to your US store and potential commissions are lost.

HOW AFFLIO HELPS

1 AUTOFIX

4 broken or unavailable links detected

Each of these links loses you commission every time it's clicked instead of converting. Afflio checks your full link inventory on a recurring schedule — as often as every 7 days — and repairs dead or unavailable links automatically as soon as they're caught, no manual link-hunting required.

2 GLOBAL LINKS

50 videos linked to one Amazon region

None of the 50 Amazon videos route international viewers to their local marketplace. Afflio's region-aware routing sends each viewer to their own local Amazon marketplace automatically — set it up once per link, and every future click routes correctly on its own.

3 GLOBAL STORE

Amazon store isn't geo-redirected

Your Amazon storefront link doesn't support OneLink, so every international visitor is sent to the US store — and you lose the commission on their purchase. Afflio routes each viewer to their local Amazon marketplace automatically, the same way it does for individual product links.
